Introduction

In presenting this new catalog we desire to thank our many customers for their continued patronage which has enabled us to carry on through these trying days. While we, on our part, have maintained the quality of our products and our service, we know that without the marked goodwill and friendliness of our clientele, we would not have weathered the storm.

This catalog contains not a complete list of our offerings, but a selection of the best trees and plants, old and new. Be assured that we have on hand all those things that are required for the successful home landscape and the making of fine gardens.

A separate price list of PLANTS FOR ROCK GARDENS may be had for the asking. Those who so wish may obtain, upon remittance of 20¢ in postage, a copy of our Illustrated Handbook, "IN AND ABOUT THE ROCK GARDEN."

Landscape Service

Those of our patrons who desire not merely to purchase trees or plants, but to be advised about the arrangement of plantings, or the making of gardens, are invited to avail themselves freely of our landscape advisory service.

The success of plantings and of gardens is measured not only in terms of value received in trees and plants, but of the beauty of the scene and the pleasure found in it. Skilled advice, therefore, is of the greatest importance,—particularly to the inexperienced amateur.

Whatever type or degree of service is required,—please feel at liberty to write or 'phone to us,—or better still, to stop at the nursery, explaining what kind of assistance is wanted. The number is Poughkeepsie 663.

Simple assistance is rendered free of charge to those who use our stock. When the service required is more extensive, or the distance considerable, a small charge is made, which may be credited to the resulting order, if its size warrants it.

Unless one is familiar with matters of planting, it will surely pay to engage our expert advice before spending money for trees and plants.

Planting Service

While it is not always possible, in the busy seasons, to send planters with every order, we shall endeavor, so far as it is desired, and so far as possible, to furnish competent planting help or foremen's service.

Planting Charges will be as follows: Help, 75¢ per hour, per man. Foremen, depending on their skill and responsibility, from \$1.00 to \$1.25 per hour. Travelling time to and from jobs will be charged at these rates.

Delivery Prices in this catalog are f. o. b. our Nursery. Delivery will be made free within a radius of five miles of our nursery. Beyond that radius it will be charged at cost.

Our Responsibility for stock ends when it leaves the nursery in good condition. We guarantee our stock to be true to name and to be healthy. In case of errors on our part, it is to be understood that we shall not be liable beyond the original price paid for stock furnished in error. Errors should be reported promptly upon receipt of stock.

We do not undertake to replace at our expense any stock which fails to survive transplanting. No one in our employ is authorized to depart from this rule. It is to be understood that, whatever replacements we may at times make voluntarily, no obligation on our part to replace stock is to be considered or assumed as a condition to the sale of our stock.

TERMS AND CONDITIONS OF SALE

Terms are Cash. Bills are due and payable when presented.

Interest will be charged on unpaid accounts, after thirty days, at the rate of one-half of one per cent per month.

DISCOUNTS

A *Discount of Five per cent* will be allowed on purchases amounting to fifty dollars or more.

A *Discount of Ten per cent* will be allowed on all Cash-and-Carry purchases.

PRICES IN THIS CATALOG ARE SUBJECT TO CHANGE
WITHOUT NOTICE

STOCKS ARE OFFERED AT THESE PRICES, SUBJECT
TO BEING UNSOLD UPON RECEIPT OF ORDERS

When specimen plants are selected personally in the Nursery, we reserve the right to charge prices in keeping with the value of such plants, irrespective of catalog prices.

POUGHKEEPSIE NURSERY COMPANY, INC.
Wm. J. Godding, Pres.
P. J. van Melle, Treas.

PRICE LIST

Prices are listed in three columns. In the first, the each-price, which applies to from one to four plants of any one listing.

In the second, the ten-rate, which applies to from five to twenty-four plants of any one listing.

In the third, the hundred-rate, which applies to from twenty-five to two hundred and forty-nine plants of any one listing.

Thousand-rates, where quoted, apply to two hundred and fifty or more plants of any one listing.

ULTIMATE SIZES as given are those which specimen trees may be expected to reach in these parts, under favorable conditions.

In the case of Evergreen Trees, shearing will affect ultimate size. Plume Cypress, for instance, which may grow up to 35 ft., may, with regular shearing, be kept down to 7 or 8 ft. for a human life-time.

ENGLISH NAMES have been given so far as good, current English names are available.

PLANT NAMES, with reasonable exceptions, are based on Dr. Bailey's Hortus and Rehder's Manual.

	Each	10 Rate	100 Rate
ABELIA grandiflora 5 to 6'			<i>Glossy Abelia</i>
<i>HALF-EVERGREEN.</i> Dainty bell-shaped shell-pink flowers produced throughout summer. In sheltered spots, the glossy foliage will persist all winter. Sometimes freezes back, but flowers on the new-grown wood.			
2 to 3 ft.....	.50		
ABIES balsamea 50 to 60'			<i>Balsam Fir</i>
This is the true Christmas Tree.			
3 to 4 ft B&B...	2.50	2.25	2.00
concolor 50 to 60'			<i>White Fir</i>
"Queen of the Firs." A handsome, stately pyramid, with large, flat needles, ranging in color from grayish-green to silvery blue. Withstands city conditions and draught, but thrives all the better for a rich soil.			
15 to 18 in. B&B...	1.50	1.35	1.25
1½ to 2 ft. B&B...	2.00	1.80	1.65
2 to 2½ ft. B&B...	3.00	2.75	2.50
2½ to 3 ft. B&B...	4.00	3.75	
3 to 4 ft. B&B...	5.00	4.75	
Fraseri 50 to 60'			<i>Fraser Fir</i>
Similar in appearance to the Balsam Fir. Fragrant, dark, lustrous foliage.			
1½ ft. B&B...	2.00		
ACANTHOPANAX pentaphyllum 7 to 8'			<i>Five-Leaved Aralia</i>
An excellent, decorative, very thorny shrub for heavy shade. Makes an impenetrable barrier.			
2 to 3 ft.50		

	Each	10 Rate	100 Rate
ACER palmatum atropurpureum 8 to 10' Red Japan Maple			
This is the familiar and favorite, upright Jap. Maple.			
1½ to 2 ft.	B&B...	3.50	
2 to 2½ ft.	B&B...	5.00	
palmatum, seedling, "wild" to 15' Wild Japan Maple			
A very decorative, less obtrusive effect in the landscape. Foliage green or bronze in summer, coloring well in autumn.			
3 to 4 ft.	B&B...	4.00	heavy
4 to 5 ft.	B&B...	5.00	heavy
dissectum purpureum 5 to 6' Purple Cut-Leaf Maple			
This makes a low, wide-spreading cushion of lace-fine foliage on the lawn. A most desirable, and not obtrusive color-effect.			
1 to 1½ ft. spr.	B&B...	2.50	
platanoides 60 to 80' Norway Maple			
Deservedly the most satisfactory shade tree. It must be considered, however, that it is difficult to grow grass or other plants in its dense shade.			
10 to 12 ft., 1¼ to 1½ in. caliper.....		2.50	
1½ to 1¾ in. caliper.....		3.00	
1¾ to 2 in. caliper.....		3.50	
ALMOND, Flowering, see Prunus glandulosa			
AMELANCHIER canadensis 25' Downey Shadblow			
A delightful early-spring subject,—a native shrub or small tree that sprinkles the native woodland scene with white.			
1½ to 2 ft.60	
2 to 3 ft.75	
AMPELOPSIS tricuspidata (Veitchii) Boston Ivy			
2 yr. old Vines, No. 1,....	.50	.45	.40
AZALEA Kaempferi 4 to 5' Kaempfer Azalea			
A near-evergreen Azalea, best used in partly shaded spots, bearing showy flowers in somewhat varying tints of orange-rose. We offer sturdy, seedling clumps.			
12 to 15 in.	B&B...	2.00	1.75 1.50
15 to 18 in.	B&B...	2.25	2.00 1.75
Kaempferi, special early.			
These are seedling plants of an earlier-flowering strain, separated by a specialist from the type. Prices as of A. Kaempferi.			
mollis 4 to 5' Chinese Azalea			
Deciduous. Large flowers, in brilliant shades of orange and red. Best used in sunny locations. One of the most satisfactory.			
9 to 12 in.	B&B...	1.50	1.35
12 to 15 in.	B&B...	2.25	2.00
mucronulata (R. dauricum mucron.) 5 to 6'			
A very early azalea, with rosy-purple flowers, that seem almost suspended in the air. A very dainty effect in early spring. Not evergreen.			
15 to 18 in.	B&B...	2.50	2.25

AZALEA		Each	10 Rate	100 Rate	1000 Rate
pontica 6 to 8'					<i>Ghent Azalea</i>
Deciduous. A sturdy bush with large trumpets of orange-red or orange-yellow flowers.					
12	to 15 in.	B&B...	2.25	2.00	
15	to 18 in.	B&B...	3.00	2.75	

Schlippenbachi 8 to 10'					<i>Royal Azalea</i>
One of the choicest of all. Grows to a considerable size and bears pink flowers. The foliage colors brightly in autumn. Rare and choice.					
9	to 12 in.	B&B...	2.50		

BEECH, see *Fagus*

BERBERIS *Barberry*

buxifolia nana. to 15"

A choice, dwarf form of a South American species, excellent for very small hedges. With a minimum of clipping it may be either so used, or sheared to resemble boxwood effects. Not to be confused with the so-called Box Barberry. It is evergreen, and the foliage turns purplish in autumn. Choice, and too little known.

10	in.	B&B...	1.00	.90	.80
----	-----	--------	------	-----	-----

Gagnepainii 4 to 5'

EVERGREEN. This, together with *B. verruculosa* may be described as the choicest of these newer, evergreen Barberry species. Gaenepainii has long, narrow, toothed leaves, in which there is every shade from bright green to mahogany tints. A choice little shrub, desirable for foundation plantings and general groupings, as well as for evergreen hedges.

Seedlings, 2 yrs., tr. pl.,

6	in.40	.30	.25
---	-----	-------	-----	-----	-----

Julianae 6 to 7' *Wintergreen Barberry*

EVERGREEN. A vigorous shrub of upright habit, with glossy, deep-green leaves, and considerable scarlet autumn coloring. A very spiny shrub. Beautiful, and especially adapted for hedges. Makes an impenetrable barrier.

Grafted, 2 ft. B&B... 1.25

Seedlings, 2 yrs., tr. pl.,

6	to 9	in.30	.25	.22	.20
10	to 12	in.50	.40	.35	.30

notabilis 6 to 8'

Deciduous. A splendid species, distinguished by large, purplish black fruit. Rare.

Seedlings plants, 10 in.40

Thunbergii 5 to 7' *Japanese Barberry*

The familiar, thorny, red-fruited Hedging Barberry.

12	to 15	in.	3 yrs. old,	.20	.15	.07½	
15	to 18	in.	3 yrs. old,	.25	.20	.15	.12
18	to 24	in.	3 yrs. old,	.30	.25	.20	.18

—atropurpurea *Red-Leaf Japanese Barberry*

A bright-red form of Jap. Barberry, for hedges or other uses, in sunny locations.

12	to 15	in.30	.25	.20	
----	-------	-----	-------	-----	-----	-----	--

	Each	10 Rate	100 Rate
--	------	------------	-------------

triacanthophora 6 to 7'

A graceful and distinct Evergreen species, of a more pleasing growth-form than Julianae. It is distinguished by reddish twigs and narrow leaves. The foliage turns quite reddish in winter. A sheltered situation is preferred.

Grafted, 15 to 18 in. B&B...	1.25	1.10	
Seedlings, 2 yrs., tr. pl., 6 to 9 in.....	.30	.28	.25

vernae 5 to 6'

A deciduous species, distinguished by pinkish fruit. In habit of growth quite comparable to that of Thunbergii.

Seedling plants, 10 to 12 in.	.25
-------------------------------	-----

verruculosa 3'

Perhaps the choicest of all. Makes a low, domeshaped bush of glossy foliage in which all tints from deep-green to mahogany-red are present. Very hardy and one of the most desirable and useful of all small evergreen shrubs. Fine also for small hedges.

Grafted, 10 to 12 in. B&B	1.00		
Seedlings, 2 yr., tr. pl., 6 to 9 in.....	.30	.28	.25

vulgaris atropurpurea 7 to 8' Red-Leaf Common Barberry

An old-familiar garden form, perhaps as beautiful as any of the deciduous kinds. The contrast of the bronze foliage and the ripening, orange fruit is, indeed, beautiful.

2 to 3 in.50
-----------------	-----

BETULA alba 40 to 50' European White Birch

Creamy-white bark. This Birch develops a graceful, somewhat pendulous habit and is always happily contrasted against an evergreen background. The white bark is not present in young trees.

4 to 6 ft. B&B...	1.25	1.00
6 to 8 ft. B&B...	1.75	1.50

lacinata 30 to 40' Weeping Cutleaf Birch

8 to 10 ft. B&B...	4.00
--------------------	------

papyrifera 70 to 80' Canoe or Paper Birch

A beautiful, stately, native Birch with brilliantly white bark.

6 to 8 ft. B&B...	1.75
-------------------	------

BUDLEYA alternifolia 7 to 8'

A new type of Butterfly Bush which bears its flowers, not in terminal spikes, but all along the branches. Very distinct.

3 yrs. old.....	.65
-----------------	-----

CALYCANTHUS floridus 8 to 9' Strawberry Bush

An old favorite, with chocolate-colored, fragrant, spicy flowers.

2 to 3 ft.50	.45
3 to 4 ft.65	.60

CARYOPTERIS incanus 2 to 2½' Blue Spiraea

A Small Shrub Which Sometimes Freezes to the Ground, but always flowers on the new growth. It

	Each	10 Rate	100 Rate
bears blue flower heads, in September and October. Very valuable in the foreground of groupings, and in the herbaceous border. The foliage smells like varnish. 2 yrs. old,40			
CATALPA Bungei 8 to 10' <i>Umbrella Catalpa</i>			
2 yr. heads.....	1.25	1.00	
CELASTRUS scandens <i>Bittersweet</i>			
Fine for naturalistic plantings. The fruit makes a desirable indoor winter decoration.			
2 to 3 ft.50	.45	
CHAMAECYPARIS (RETINOSPORA) <i>"Cypress"</i>			
Obtusa gracilis 12 to 15'			
This form is distinguished by its very dark green foliage and rounded, shell-shaped branchlets. A beau- tiful, dense pyramid.			
15 to 18 in. B&B...	2.25	2.00	
1½ to 2 ft. B&B...	2.75	2.50	
—magnifica 30 to 35'			
Grows into a large pyramid. A robust, deeper green and improved form of obtusa.			
We offer very handsome, sheared plants.			
4 to 5 ft. B&B...	5.00	4.50	
5 to 6 ft. B&B...	7.00	6.50	
pisifera 40 to 50' <i>Sawara Cypress</i>			
This green pisifera is one of the best of the Retinos- poras. It makes a tall, stately pyramid, impressive as a specimen tree, and serviceable as a hedge material.			
2 to 2½ ft. B&B...	1.50	1.35	
2½ to 3 ft. B&B...	1.75	1.50	
3 to 4 ft. B&B...	3.00	2.75	
4 to 5 ft. B&B...	3.50	3.00	
5 to 6 ft. B&B...	5.00	4.50	
—aurea 30 to 40' <i>Golden Sawara Cypress</i>			
A handsome golden form of pisifera. Makes a fine specimen tree or hedge. Considered by some to be hardier than the green.			
Prices as of the green.			
6 to 7 ft. B&B...	7.50	6.75	6.00
—filifera 20 to 25' <i>Thread Cypress</i>			
The long, pendulous branchlets of this form lend the plant a peculiar, fountain-like effect. It is one of the most beautiful of the Retinosporas, responding well to shearing.			
1½ to 2 ft. B&B...	1.50	1.35	1.25
2 to 2½ ft. B&B...	2.25	2.00	
2½ to 3 ft. B&B...	2.75	2.50	
3 to 4 ft. B&B...	5.00	4.50	Heavy, sheared
—filifera aurea 10 to 15' <i>Golden Thread Cypress</i>			
A very brightly colored form of the Thread Cypress. Likes a sunny location and a rich soil.			
15 to 18 in. B&B...	2.00	1.75	1.60
18 to 24 in. B&B...	3.00	2.75	2.50
—plumosa 30 to 40' <i>Plume Cypress</i>			
A popular variety, with feathery foliage. It responds very well to shearing and makes a beautiful hedge.			

	Each	10 Rate	100 Rate
--	------	------------	-------------

If left to grow, will form a tall pyramid. Our stock of this form has been sheared closely and is of exceptional quality.

1½ to 2	ft.	B&B...	1.00	.90	
2 to 2½	ft.	B&B...	1.50	1.35	1.20
2½ to 3	ft.	B&B...	2.00	1.75	1.50
3 to 4	ft.	B&B...	3.00	2.75	2.50
4 to 5	ft.	B&B...	3.50	3.00	2.75

— *aurea* 25 to 30'

Golden Plume Cypress

A bright golden form of Plume Cypress,—one of the most popular and satisfactory for a variety of purposes. Makes very fine sheared specimens.

Prices as of the preceding.

CHERRY, Japanese, See *Prunus*

CHIONANTHUS virginica 18 to 20'

White Fringe

One of the choicest of early-flowering shrubs, deserving of a prominent spot in the home landscape. White, fragrant, drooping clusters of flowers, dainty and lace-like.

2 to 3	ft.75
--------	-----	-------	-----

CLERODENDRON trichotomum 6'

Harlequin Shrub

A little known, and most decorative shrub, very permanent when once established, and propagating itself by suckers. Broad, grayish-green foliage, and bearing, in September, loose clusters of fragrant, whitish or pale rose flowers, with showy, red calices, followed by purplish-blue fruit which is exceptionally showy. Occasionally this shrub will freeze to the ground, but it flowers on new growth.

3 yrs. old	1.00
------------	-------	------

CLETHRA alnifolia 6 to 7'

Sweet Pepper Bush

An old favorite, native shrub which bears little spikes of very fragrant flowers in mid-summer. Best used as an underplanting.

2 to 3	ft.50	.45
--------	-----	-------	-----	-----

CORNUS alba 7 to 9'

Tatarian Dogwood

A desirable winter-effect. The twigs are red. The shrub bears striking bluish-white fruit in late summer.

3 to 4	ft.65	.60
--------	-----	-------	-----	-----

florida 25 to 30'

White Flowering Dogwood

Needs no description or recommendation.

3 to 4	ft.	B&B...	1.50
--------	-----	--------	------

—*rubra* 25 to 30'

Red-Flowering Dogwood

One of the choicest little trees for the home landscape. It has as its main glory the lovely show of pink Dogwood flowers. Then, in the fall, the bright-red fruit, and autumn coloring which even surpasses that of the white-flowering form.

2 to 3	ft.	B&B...	2.00	1.75
3 to 4	ft.	B&B...	3.00	2.75
4 to 5	ft.	B&B...	5.00	4.50

—*Welchii*

A form of white-flowering Dogwood with handsomely variegated foliage. Choice and rare.

1 ft.	B&B...	2.25
-------	--------	------

CORNUS

	Each	10 Rate	100 Rate
--	------	------------	-------------

Kousa 20 to 25'**Kousa Dogwood**

This Japanese Dogwood should be planted freely with the native. It is similar in general appearance, but bears its flowers after the leaves have developed,—on green trays, instead of on the bare branches. We recommend this species for use in the home landscape.

3	to	4	ft.	B&B...	2.00	1.75	
4	to	5	ft.	B&B...	2.75	2.50	

stolonifera 8 to 10'**Red Osier Dogwood**

A native shrub, desirable in the "made" landscape for its bright red winter twigs, and its bluish white fruit in late summer. Grows naturally in damp places.

2	to	3	ft.50		
---	----	---	-----	-------	-----	--	--

CORYLUS Avellana purpurea 15 to 18'**Red Hazel**

A handsome, robust shrub, with foliage quite bright red in the spring, toning down to purplish green later.

4	to	5	ft.	1.50		
---	----	---	-----	-------	------	--	--

COTONEASTER Dielsiana 5 to 6'

A loose, graceful shrub, most effective when massed. It bears glistening red berries.

2	to	3	ft.	B&B...	1.00	.90	
---	----	---	-----	--------	------	-----	--

divaricata 4 to 6'

A broad-spreading shrub, bearing red fruit.

1½	to	2	ft.	B&B...	1.00	.90	
----	----	---	-----	--------	------	-----	--

Franchetti cinerescens 4 to 5'

A smaller and hardier form of the species, with grayish-green leaves and small, bright, orange-red fruit. One of the more upright types.

2	to	3	ft.	B&B...	1.00	.90	
---	----	---	-----	--------	------	-----	--

horizontalis 10 to 12' wide**Rock Cotoneaster**

12	to	18	in. spr.	B&B...	1.00	.90	
----	----	----	----------	--------	------	-----	--

18	to	24	in. spr.	B&B...	1.75	1.50	
----	----	----	----------	--------	------	------	--

2	to	2½	ft. spr.	B&B...	2.25	2.00	in wire baskets
---	----	----	----------	--------	------	------	-----------------

nitens 3 to 4'

A small, deciduous, upright species, with black fruit. The black-fruited kinds should be represented in collections of Cotoneasters.

2	to	3	ft.	B&B...	1.00	.90	
---	----	---	-----	--------	------	-----	--

CRYPTOMERIA japonica Lobbi 30 to 40'**Japanese Temple Cedar**

A tall, narrow Evergreen tree which, in Japan, reaches a great height. It is undoubtedly at once the most exotic-looking, and yet one of the most impressive of all Evergreens, perfectly hardy and of rapid growth. Most effective when used as an avenue tree.

4	to	5	ft.	B&B...	4.00	3.75	
---	----	---	-----	--------	------	------	--

5	to	6	ft.	B&B...	5.00	4.50	
---	----	---	-----	--------	------	------	--

6	to	7	ft.	B&B...	8.00	7.25	6.75
---	----	---	-----	--------	------	------	------

7	to	8	ft.	B&B...	10.00	9.00	8.00
---	----	---	-----	--------	-------	------	------

8	to	9	ft.	B&B...	12.50	10.00	
---	----	---	-----	--------	-------	-------	--

EACH-PRICES, in the left-hand column, apply to from one to four plants of any one listing and size.

TEN-RATES, second from left, apply to from four to twenty-four plants of any one listing and size.

100-RATES, third from left, apply to twenty-five or more plants of any one listing and size.

1000-RATES, where given, apply to two hundred and fifty or more plants of any one listing and size.

	Each	10 Rate	100 Rate
—dacrydioides 15 to 20'			<i>Fountain Cryptomeria</i>
A rare form, of striking character and grace; somewhat suggestive of the Arauearias (Monkey Puzzle) of more Southern gardens, but more graceful. This form cannot be properly appreciated until it has reached a height of six feet or more.			

2	to	2½ ft.	B&B...	4.00
---	----	--------	--------	------

CYDONIA japonica to 6'			<i>Flowering Quince</i>
An old-time favorite, bearing large pink or red blossoms in early spring, resembling apple blossoms.			

2	to	2½ ft.50	.45
---	----	--------	-------	-----	-----

CYPRESS, See *Chamaecyparis*

DAPHNE cneorum (LOW MATS)			<i>Garland Flower</i>
A great favorite. Low, evergreen foliage cushions, decked out in May and again in the fall, with fragrant, pink flowerheads.			

10	to	12	in. wide	B&B..	1.00	.90
----	----	----	----------	-------	------	-----

DEUTZIA gracilis 3 to 4'			
An old-familiar, low, dome-shaped bush, all decked out in white, in May.			

1½	to	2	ft.50	.45
----	----	---	-----	-------	-----	-----

DEUTZIA, tall, upright kinds

2	to	3	ft.50	.45
3	to	4	ft.65	.60
4	to	5	ft.85	.80

ENKIANTHUS campanulatus 10 to 12'

A most striking and beautiful shrub which deserves to be used more freely. Its structure is somewhat suggestive of that of certain Azaleas. The branches are whorled, and from them are suspended little clusters of white, red-veined flowers. The shrub is noted for its brilliant red autumn-coloring. Deciduous.

1½ ft.	B&B.....	1.75	1.50
--------	----------	------	------

EUONYMUS alatus 7 to 8'			<i>Burning Bush</i>
--------------------------------	--	--	---------------------

One of the very finest foliage shrubs, deserving of free use. It has strange-looking, winged, corky branches, excellent foliage and small, brilliant-red fruit. Its autumn-coloring of brilliant red is unsurpassed in any other shrub. Deciduous.

2	to	3	ft.60	.55
3	to	4	ft.75	.70

—compactus 4 to 5'			<i>Dwarf Burning Bush</i>
---------------------------	--	--	---------------------------

A little known, excellent, dwarf form of the species, useful in combination with the larger form. Also suitable for small hedges, as it may be clipped closely. Its autumn-coloring, in the nursery has been, if possible, even more brilliant than in the larger form.

1	to	1½ ft.	B&B...	.85	.80	.75
1½	to	2	ft.	B&B...	1.10	.90
2	to	2½ ft.	B&B...	1.50	1.35	1.10

europaeus 15 to 18'			<i>European Spindle Tree</i>
----------------------------	--	--	------------------------------

A robust, upright shrub, with showy, pink fruit. Deciduous.

3	to	4	ft.65	.60
---	----	---	-----	-------	-----	-----

EUONYMUS

	Each	10 Rate	100 Rate
--	------	------------	-------------

japonicus microphyllus

A small-leaved little shrub which resembles Boxwood very closely and may be used as an edging or clipped, in the same manner. Best used in somewhat sheltered places. Evergreen.

6 in.	B&B...	.60	.50
-------	--------	-----	-----

nanus (rosmarinifolius)

A sprawling, loose, evergreen Vine which does not cling. Especially suitable for use atop a retaining wall. Narrow leaves, which turn red in winter. Rare. Small rooted plants, 1.00

patens 8 to 10'*Euonymus*

A handsome, sturdy shrub with large, deep-green, laurel-like leaves,—evergreen in sheltered, shaded places, but hardy enough for general use. It thrives almost anywhere and may be used to advantage in dark, north corners of buildings. It bears greenish white flowers in September, and the pink fruit, showy when properly developed, does not always mature.

15 to 18 in.	B&B...	.80	.75
--------------	--------	-----	-----

radicans*Wintercreeper*

This, and its varieties, the variegated, and vegetus and coloratus, are all useful vines, for groundcover purposes or to cover wall spaces. Evergreen.

Vegetus is a round-leaved variety, suitable also for low, trimmed edgings. Coloratus, being a rank grower, is better for groundcover in larger areas. Its foliage colors red in winter.

Potted plants of any of the above.

	.50	.45
--	-----	-----

—minimus (Kewensis)

A tiny-leaved, smaller form, which makes attractive mats and mounds in the shadier part of the rock garden. A choice little plant.

Potted plants,	.60	.55
----------------	-----	-----

FAGUS sylvatica purpurea, seedlings 80 to 100' Beech

These seedlings range in color from bronzy green to quite red.

Sturdy plants, B&B,		
4 to 5 ft.	3.00	

FORSYTHIA 8 to 9'*Golden Bell*

A popular and very welcome yellow-flowering, early spring effect.

In variety,		
2 to 3 ft.50	.45

HALESIA tetraptera 20 to 25'*Silver Bell*

A delightful early flowering small tree, hung all over with lovely white bells, in May. Too little used.

4 to 5 ft.85	.75
-----------------	-----	-----

HAMAMELIS mollis 15 to 25'*Chinese Witchhazel*

This is by far the handsomest of the Witchhazels, bearing golden-yellow ribbons of flowers in earliest spring.

5 to 6 ft.	B&B...	5.50	5.00	
6 to 7 ft.	B&B...	7.50	7.00	

—Keteleeri

A good green form, of rapid growth, with the lateral growths branches growing pronouncedly upward.

3 to 4 ft.	B&B...	3.00	2.75
4 to 5 ft.	B&B...	4.50	4.00 3.60

—Schotti*Schott Redcedar*

Characterized by a brilliant, bright, light green color.

3 to 4 ft.	B&B...	3.00	2.75
4 to 5 ft.	B&B...	4.50	4.00

KERRIA japonica 6 to 7'

A familia:, green-twigged shrub, bearing, in May, little yellow flowers like small wild Roses. There is also a double form, with yellow button-flowers. A good shrub for shaded places.

2 to 3 ft.50	.45
------------	-------	-----	-----

			Each	10 Rate	100 Rate
KOLKWITZIA	amabilis	6 to 7'			<i>Beautybush</i>
A beautiful flowering shrub, introduced in late years. It is like a glorified Weigelia. It does not flower at an early age, but is worth waiting for.					
2	to 3	ft.	.60	.50	
LARIX	europaea	50 to 60'			<i>European Larch</i>
4	to 5	ft.	B&B... 2.00	1.75	
5	to 6	ft.	B&B... 2.50	2.25	
6	to 8	ft.	B&B... 4.00	3.50	
LIGUSTRUM	ibolium	10 to 15'			<i>Ibolium Privet</i>
A cross between the California and Ibota Privet, with all the appearance of the former, and the hardiness of the latter. Preferable to the California for our winters.					
1½	to 2	ft.	.15	.12	.08
2	to 3	ft.	.20	.15	.12
3	to 4	ft.	.25	.20	.15
Ibota	Regelianum	6 to 8'			<i>Regel Privet</i>
This Privet makes a very beautiful foliage shrub. Its habit is more spreading than that of the California. Also used for hedging. Very hardy.					
2	to 2½	ft.	.40	.35	.30
LONICERA	japonica Halleana	<i>Hall's Japanese Honeysuckle</i>			
The foliage of this Vine is almost evergreen, and makes a most desirable covering for slopes or other large areas.					
2 yrs. old, No. 1			.30	.25	.20
—reticulata		<i>Gold-Spotted Honeysuckle</i>			
A patch of this Vine creates a pleasing, bright, sunny effect.					
Potted plants,			.50	.45	
tatarica, and other kinds		<i>Shrubby Honeysuckles</i>			
These are valuable shrubs, useful in shaded areas, desirable both for their flowers and for the variously colored berries in mid-summer.					
3	to 4	ft.	.65	.60	
MAGNOLIA	Soulangeana	20 to 25'			<i>Saucer Magnolia</i>
A favorite specimen tree for the lawn. Great pink cups, white inside.					
1½	to 2	ft.	B&B... 2.00		
2	to 2½	ft.	B&B... 2.50		
stellata		10 to 15'			<i>Star Magnolia</i>
This is the smaller-flowered, white Magnolia, the first to flower;—so early, in fact, that it is more likely to be bitten by late frosts.					
15	to 18	in.	B&B... 2.50		
	2	ft.	B&B... 3.00		
tripetala		30 to 40'			<i>Umbrella Magnolia</i>
A large tree, with immense leaves, two feet or more long and showy, white flowers.					
4	to 6	ft.	1.50	1.35	
MAHONIA	Aquifolia	3 to 6'			<i>Oregon Holly-Grape</i>
An exceedingly beautiful and useful evergreen shrub, with foliage like large rose-leaves, in tints from					

glossy green to every mahogany shade and dull green. Especially in the fall the coloring is handsome, in open locations. In shade, this coloring is not marked, but the foliage is more sure to persist throughout the winter. This shrub furnishes an unexcelled Christmas decoration. The foliage alone is a sufficient reward. After mild winters, or in sheltered places, there is a good display, in late spring, of trusses of yellow blossoms, which are followed by clusters of miniature concord grapes.

We recommend this little shrub as one of the most beautiful and easiest-to-grow of all evergreen shrubs. If it cannot be allowed to grow tall, cut it back severely every spring.

12	to 15	in.	B&B...	1.00	.90	.80
15	to 18	in.	B&B...	1.50	1.25	1.10

triloba plena	7 to 8'	<i>Double-Flowering Plum</i>			
These shrubs are smothered, in the spring, under double, large flowers of a soft, pure pink.					
3	to 4	ft.	B&B... 2.00		
PSEUDOLARIX amabilis	40 to 50'	<i>Japanese Golden Larch</i>			
Makes a broad, spreading tree. The most desirable of the Larch group, for ornamental purposes. Foliage turns a golden yellow in autumn.					
2	to 3	ft.	B&B... 2.50		
3	to 4	ft.	B&B... 3.50		
PSEUDOTSUGA Douglasi	70 to 80'	<i>Douglas Fir</i>			
This Western Fir is one of the best of all Firs and Spruces for general use in these parts. A rapid growing tree, making a slender pyramid.					
2½	to 3	ft.	B&B... 2.25	2.00	1.80
3	to 4	ft.	B&B... 2.75	2.50	2.25
4	to 5	ft.	B&B... 3.25	3.00	
5	to 6	ft.	B&B... 4.50	4.00	3.75
6	to 7	ft.	B&B... 6.00	5.50	

	Each	10 Rate	100 Rate
QUERCUS coccinea 60 to 75' <i>Scarlet Oak</i>			
Forms a round-topped, rather open head; handsome, deeply cut leaves, bright green, turning to brilliant scarlet in autumn.			
6 to 8 ft.	2.50		
8 to 9 ft.	3.50		
9 to 10 ft.	4.50		

palustris 70 to 80' <i>Pin Oak</i>			
A very adaptable and much used, beautiful Oak, making a neat pyramidal head. Deeply cut, lustrous foliage, turning crimson in autumn.			
6 to 8 ft.	2.00	1.75	
8 to 10 ft.	3.00	2.75	

RETINOSPORA, See CHAMAECYPARIS

RHODODENDRON micranthum 3 to 6'			
An uncommon, small-leaved species, from China. It bears small, dense clusters of white flowers, resembling those of Ledum. The leaves are quite aromatic. A good shrub to mass with Laurel and other Rhododendrons and Azaleas.			
1 to 1½ ft. B&B...	2.00	1.75	1.65
1½ to 2 ft. B&B...	2.50	2.25	2.00

RHODOTYPOS kerrioides 5 to 6' <i>Jetbead</i>			
A charming shrub in flower, bearing large white blossoms, suggestive of those of the Quince. The fruit is a shiny, black bead. A good shrub for shaded areas.			
2 to 3 ft.50	.45	
3 to 4 ft.65	.60	

SALIX elegantissima 50 to 60' <i>Thurlow Weeping Willow</i>			
A quick-growing tree. Wide-spreading.			
8 to 10 ft.	2.25		

pentandra 50 to 60' <i>Laurel Willow</i>			
Distinguished by its shiny, Laurel-like foliage.			
8 to 10 ft.	2.00		

SORBUS aucuparia 25 to 30' <i>European Mountain Ash</i>			
A highly decorative little tree, especially suited for the smaller home landscape. The "Rowan" tree is an old favorite. Its large heads of white flowers diffuse a delightful fragrance, and the clusters of orange-red berries, ripening in August, seem to light up the tree all through the fall, and provide a banquet for birds.			
6 to 8 ft.	1.25	1.00	
8 to 10 ft.	2.00	1.80	
10 to 12 ft.	3.50	3.15	
Specimen trees,....	7.50		

quercifolia 20 to 25' <i>Oak-Leaved Mountain Ash</i>			
Quite different in leaf. The foliage has the shape of Oak leaves. The fruit is borne in small clusters along the branches.			
5 to 6 ft.	1.50		

SPIRAEAS, in variety			
Dwarf kinds,			
1½ to 2 ft.50	.45	
Taller kinds,			
2 to 3 ft.50	.45	
3 to 4 ft.65	.60	

	Each	10 Rate	100 Rate
STEPHANANDRA incisa 5 to 6'			
A very beautiful foliage effect, and excellent for massing. Deeply cut, bronze-green leaves. This shrub will sometimes freeze back partway in winter. But it is worth using.			
2 to 3 ft.50	.45	

SYMPHORICARPUS**Chenaulti, racemosus and vulgaris**

Valuable shrubs, grown both for their good foliage and the white, red or colored berries.

2 to 3 ft.50	.45
3 to 4 ft.65	.60

SYRINGA persica 8 to 10'*Persian Lilac**Purple or white:*

2 to 3 ft.50	.45
3 to 4 ft.65	.60

—French Hybrid Lilacs

2 to 3 ft.85	.80
3 to 4 ft.	1.25	1.00
4 to 5 ft.	2.00	1.80

TAXUS*Yew***baccata ovata***(Variety of) English Yew*

A comparatively hardy form of English Yew.

15 to 18 in. B&B...	2.75	2.50
1½ to 2 ft. B&B...	3.25	3.00

canadensis*American Yew*

This native, woodland Yew makes a very fine, low groundcover under trees. Nursery-grown plants develop into shapely specimens, quite different from the long, rank growths that cover the woodland ground. Does not retain as good a winter color as the Japanese Yew, but makes a good sheet planting.

1 to 1¼ ft. spr. B&B...	1.25	1.10	1.00
1½ to 2 ft. spr. B&B...	1.75	1.65	1.50

cuspidata, Upright Form*Japanese Yew*

Perhaps the most valuable of all ornamental evergreens for the home landscape. Dark-green foliage, retaining its fine color winter and summer. It may be used for individual specimens, in mixed plantings, or for hedges, in open or partly shaded areas. With a little trimming, dense pyramids may be grown. Or, if left untrimmed, tall, impressive trees will develop, up to a height of 25 feet or more.

15 to 18 in. B&B...	2.00	1.80	1.70
1½ to 2 ft. B&B...	2.25	2.00	1.80
2 to 2½ ft. B&B...	3.00	2.75	2.50
2½ to 3 ft. B&B...	4.00	3.75	3.50
3 to 3½ ft. B&B...	7.50	5.75	6.00

Spreading Form

This is really the same kind of Yew, except that it has been grown from lateral cuttings. It makes dense, impressive clumps of green, up to 15 ft. in height.

A combination of this with the upright and other forms of Yew makes a good effect.

12 to 15 in. spr. B&B...	1.25	1.10	
15 to 18 in. spr. B&B...	1.75	1.65	
1½ to 2 ft. spr. B&B...	2.00	1.80	1.60

				Each	10 Rate	100 Rate
cuspidata nana				<i>Dwarf Japanese Yew</i>		
This is a most desirable, dwarf, compact form, which is quite satisfactory in rather heavy shade. We offer a very dwarf, slow-growing type of this Yew. These small plants are worth growing on, and are superior to looser, faster-growing types sold under the same names.						
6	to	9 in.	B&B...	1.00		
9	to	12 in.	B&B...	1.50	1.40	
12	to	15 in.	B&B...	2.25	2.00	
15	to	18 in.	B&B...	3.00	2.75	
media				<i>Hybrid Yew</i>		
Under this heading we offer seedlings of Yews, intermediate between the Japanese and the English Yew. They vary a good deal in habit and appearance, and there are things of quite unusual interest amongst them.						
They range in height from 1 to 2 feet and in price from 1.75 to 2.50.						
—Hatfieldii				<i>Hatfield Yew</i>		
One of the choicest hybrid forms, slow-growing and compact. With a little judicious trimming, this form will make beautiful, dense little pyramids. Exceptionally fine.						
12	to	15 in.	B&B...	2.75	2.50	2.25
15	to	18 in.	B&B...	3.75	3.25	3.00
—Hunnewelliana				<i>Hunnewell Yew</i>		
A hybrid between the Japanese and the American Yew, valued for its great hardiness. It makes a very fine hedge material.						
12	to	15 in.	B&B...	1.75	1.65	1.50
—Hicksii 8 to 10'				<i>Hicks Yew</i>		
A fine, dark green, narrowly pyramidal form, developed at the Hicks' nurseries on Long Island. It fruits very freely, and, when the fruit is ripe, presents, indeed, a charming picture.						
2	to	3 ft.	B&B...	3.50	3.25	
THUYA occidentalis 30 to 35'				<i>American Arborvitae</i>		
<i>An excellent native tree</i> , doing best in a damp soil. When well-developed, makes tall, stately trees. Useful also for fairly tall hedges and windbreaks.						
The American Arborviate has been unwisely used in foundation plantings and stands in bad repute for that reason. When used properly, however, it is one of our truly beautiful, native evergreens.						
3	to	4 ft.	B&B...	1.75	1.50	1.35
4	to	5 ft.	B&B...	3.00	2.70	2.50
5	to	6 ft.	B&B...	4.00	3.60	3.25
—B & A Golden 30 to 35'						
Like the type in habit. Distinguished by a pale yellow variegation, quite distinct in summer, and not so clearly in winter.						
2	to	3 ft.	B&B...	1.00	.90	
3	to	4 ft.	B&B...	1.75	1.50	
4	to	5 ft.	B&B...	2.75	2.50	2.25

Five to 24 plants at the ten-rate; 25 to 249 at the hundred-rate; 250 or more at the thousand-rate.

				Each	10 Rate	100 Rate
—Douglasii aurea 15 to 20' Douglas Golden Arborvitae						
A fine specimen tree. Bronzy-yellow, forming a broad-based pyramid. We offer very fine plants.						
4	to	5	ft.	B&B... 3.00	2.75	2.50
5	to	6	ft.	B&B... 5.00	4.50	

—pyramidalis (T. o. spiralis) 20 to 25' Douglas Pyramidal A. Vitae

A truly beautiful, dark green form, of slower growth, retaining a good winter color, and forming a narrow, dense pyramid. This is an evergreen of considerable value in the home landscape.

2	to	2½	ft.	B&B... 1.35	1.25	1.10
2½	to	3	ft.	B&B... 1.65	1.50	1.25
3	to	4	ft.	B&B... 2.75	2.50	
4	to	5	ft.	B&B... 4.00	3.50	
5	to	6	ft.	B&B... 5.50		

—elegantissima 30 to 35'

Under this uncertain name we offer a truly beautiful Arborvitae, with lustrous, dark green foliage, which, for a period in early summer, shows a pale-yellow tip to the branchlets. It has all the fine qualities of Thuya plicata (T. Lobbi), of which it is probably a variety. This tree is worth a place in the home grounds.

3	to	4	ft.	B&B... 2.50	2.25	2.00
4	to	5	ft.	B&B... 3.25	3.00	2.75

—globosa 3' Globe Arborvitae

A familiar and popular, globe-shaped bush.

12	to	15	in.	B&B... .75	.60	
----	----	----	-----	------------	-----	--

—lutea 12 to 15' Geo. Peabody Arborvitae

This form is distinguished by its brilliant orange-yellow color.

2½	to	3	ft.	B&B... 1.75	1.50	
3	to	4	ft.	B&B... 2.75	2.50	

—pyramidalis 25 to 30' Pyramidal Arborvitae

A narrow, columnar form, which maintains a good green color in winter. Useful both as a specimen or as a hedge material.

3	to	4	ft.	B&B... 1.50	1.35	1.00
4	to	5	ft.	B&B... 2.75	2.50	2.00

NOTE: The above are light hedging grades only.

Heavier Plants as follows:

3	to	4	ft.	B&B... 2.50		
4	to	5	ft.	B&B... 3.50		

—Rosenthali 8 to 10' Rosenthal Arborvitae

A distinct, dwarf Arborvitae, which makes a broad, dense little pyramid that has an appearance of great age.

2½	to	3	ft.	B&B... 2.00		
3	to	3½	ft.	B&B... 2.75		

—robusta (Wareana) 10 to 15' Siberian Arborvitae

A dense, low, bulging, somewhat pyramidal clump. Very hardy, and, especially in its younger stages, distinct from the type occidentalis by a grayish cast to the foliage. A good specimen tree, and an excellent hedge material.

			Each	10 Rate	100 Rate
1½ to 2	ft.	B&B...	1.25	1.10	1.00
2 to 2½	ft.	B&B...	2.00	1.80

3 to 4	ft.	B&B...	3.00	2.75	2.50

plicata (Lobbi atrovirens) 35 to 45' *Giant Arborvitae*

A Western American species, far superior to occidentalis. It grows very tall, and has lustrous, deep-green, thicker foliage. A noble tree.

3 to 4	ft.	B&B...	2.00
--------	-----	--------	------

Standishii 30 to 35'*Japanese Arborvitae*

Very different in appearance from the American species. A narrow tree, of more irregular outline, and quite drooping branchlets. The foliage is a peculiar bronze-green, thick and lustrous. A good tree, which should be given a rich soil and a place away from sweeping winds.

1½ to 2	ft.	B&B...	2.00	1.75	1.50
2 to 2½	ft.	B&B...	2.25	2.00	

TSUGA canadensis 60 to 70'*Hemlock*

No description or recommendation needed for this noble, native evergreen, except to suggest that it makes also an excellent hedge.

2 to 2½	ft.	B&B...	2.25	2.00	1.75
2½ to 3	ft.	B&B...	2.50	2.25	
3 to 4	ft.	B&B...	3.50	3.15	3.00
4 to 5	ft.	B&B...	4.50	4.00	3.60
5 to 6	ft.	B&B...	6.50	6.00	5.50

—pendula*Sargent Weeping Hemlock*

Makes magnificent, broad, low specimens. This beautiful form was found by the late Prof. Sargent in the Hudson Highlands. The ultimate height of these plants may be determined by the training upward of leaders.

2 x 2½	ft.	B&B...	6.00
2½x 3'	up.	B&B...	10.00

caroliniana 40 to 50'*Carolina Hemlock*

An excellent Southern species, differing from our native by its more grayish foliage, a lower, more spreading habit. We find that an occasional plant of it contrasts pleasingly with a grouping of the native. It is thoroughly hardy and makes a good hedge as well.

2 to 2½	ft.	B&B...	2.75	2.50	2.25
2½ to 3	ft.	B&B...	3.75	3.50	3.25
3 to 3½	ft.	B&B...	4.50	4.25	4.00

ULMUS americana, molini 80 to 100'*Moline Elm*

A remarkably rapid-growing form of American Elm, originated in the Middle West, and distinguished by its narrower form. It is used a great deal, therefore, for avenue planting and may be set closer than the typical American Elm.

8 to 10	ft.	2.00	1.80
10 to 12	ft.	2.25	2.00
12 to 14	ft.	4.00	3.60

VIBURNUM Carlesii 4 to 5'

A small shrub, of enormous value in the home landscape. A pink-flowering, most delightfully fragrant little Snowball. This little shrub has so endeared itself to gardeners in the few years since its introduction that it now is in general demand.

1 to 1½	ft.	B&B...	1.10	1.00
1½ to 2	ft.	B&B...	1.75	1.60

VIBURNUM

	Each	10 Rate	100 Rate

dentatum 8 to 10'*Arrow-Wood*

One of the native Snowballs, with creamy white flower heads and black fruit.

2	to	3	ft.50	.45
3	to	4	ft.65	.60

dilatatum 8 to 10'

A Japanese species, valued for its beautiful red berries. Considered one of the best for fruiting qualities.

1½	to	2	ft.75	.65
2	to	3	ft.	1.00	.90

fragrans 8 to 9'

Though not as choice as *Carlesii*, a most valuable shrub, with pale pink flower heads, and very fragrant. From China.

12	to	18	in.	B&B...	1.00	
----	----	----	-----	--------	------	--

opulus 10 to 12'*Highbush Cranberry*

An excellent shrub, valued for its immense clusters of large, juicy red berries.

3	to	4	ft.65	.60
---	----	---	-----	-------	-----	-----

—nanum 1 to 2'

A remarkable, very dwarf little *Viburnum*, used for low edgings. It needs hardly any pruning, but may be trimmed for very even and low edgings. It does not usually flower or fruit.

6	to	9	in., heavy, B&B	.60	.55	.50
9	to	12	in., heavy, B&B	.85	.75	.70

rhytidophyllum 8 to 10'*Leatherleaf Viburnum*

An unusual effect amongst the *Viburnum*. This shrub is half-evergreen, and, in sheltered places, often retains its foliage throughout the winter. It has very long, narrow leaves, and bears brilliant red fruit.

15	to	18	in.	B&B...	1.00	.90
1½	to	2	ft.	B&B...	1.50	1.25

theiferum 10 to 12'

This species we recommend as one of the very best, if not the best of all. A handsome shrub, with beautiful foliage that often bronzes toward late summer, with orange-red fruit of great showiness. It fruits freely and dependably. Rare.

1½	to	2	ft.	B&B...	1.25	1.00
2	to	2½	ft.	B&B...	1.50	1.25
3	to	4	ft.	B&B...	1.75	

tomentosum 8 to 10'

A glorious old-timer; one of the best of all. Makes a handsome specimen shrub, with the horizontal branches literally snowed under with pure white, flat flowerheads about Decoration day.

2	to	3	ft.65	.60
---	----	---	-----	-------	-----	-----

—plicatum 7 to 8'*Japanese Snowball*

A beautiful shrub, both for foliage and flowering qualities. The foliage bronzes in summer and the globular flowerheads are pure white.

MATERIALS FOR HEDGES

The beauty of a hedge, after years of care and trimming, depends to a large extent upon the distance at which trees or shrubs are set. The amateur is often tempted to set plants too far apart, for the sake of economy.

We quote here a paragraph from a report on "*Hedges and their Uses*," Bulletin 142, New Series, Dept. of Agriculture, Dominion of Canada, 1931. This report covers a more extensive experimentation with various hedge materials than has ever been conducted elsewhere.

"Plants from one to three feet in height are the best in most cases, as, the smaller the plants, the easier it will be to have them well clothed with branches to the ground. A single row of plants is usually quite sufficient to make a good hedge. The plants should be set from fifteen to eighteen inches apart. While some trees might make more permanent hedges if planted at a greater distance than this, it is interesting to note that plants of some of the best tree hedges at the Central Experimental Farm, Ottawa, were planted eighteen inches apart forty years ago and are still in almost perfect condition,—two which might be mentioned being Canada Hemlock and White Pine. If one desires to save expense plants may be set two feet or more apart with good results, but it takes a little longer to form a hedge at this distance and there is this disadvantage, that if a plant happens to die it leaves a very wide gap which will take some time to fill up satisfactorily again."

In line with this advice we have indicated below proper planting distances with each item.

In many instances the following quantity prices for hedging materials represent appreciable savings over specimen grades quoted in the body of the catalog.

EVERGREEN TREES

The finest of all Evergreen Hedges are made of *Japanese Yew*. Here is a way for those who wish to plant a Yew Hedge at little cost. We have a block of fifteen thousand transplanted seedlings, just fine for the purpose. Plant these in a single row, 10 to 12 inches apart. Prepare the soil well before planting, and trim as required.

SPECIAL OFFER:

Japanese Yew, upright type, once transplanted, 8 to 10"

Plant these one foot apart.

Japanese Yew, upright type, once transplanted,

8 to 10 inches.30 .25 .20

Five to 24 plants at the ten-rate; 25 to 249 at the hundred-rate; 250 or more at the thousand-rate.

SHRUBBY HEDGES

Size	Planting Distance Inches	In quantities of 25 or more Plants	Description of Grade
Ibodium Privet			
A hardy cross between the old California and the Ibota Privet, combining the appearance of the former with the hardiness of the latter.			
2 to 3 ft.	9 to 12	.12	
3 to 4 ft.	9 to 12	.15	
Berberis Thunbergii			
			<i>Japanese Barberry</i>

EVERGREEN SHRUBS FOR HEDGES

Berberis Julianae			
			<i>Wintergreen Barberry</i>
Makes a beautiful, evergreen hedge up to 7 ft. high. It is especially desirable where an impenetrable hedge is desired. The young growth is beautifully tinted, and the scarlet autumn coloring no less attractive.			
<i>Two-year seedlings, transplanted</i>			
6 to 9 in.	10 to 12	.20	
9 to 12 in.	12	.30	

Berberis verruculosa

A most attractive evergreen, low hedge. With a minimum of trimming it may be kept down to a height of 1½ foot. This little Chinese Barberry is one of the loveliest of all evergreen shrubs.

Two-year seedlings, transplanted

6 to 9 in. 10 .25

We desire to caution the planting public against purchasing nursery stock from peddlers.

It is not safe to buy, at any price, trees that have been carted about on trucks, for an unknown length of time, exposed to sun and wind.

Purchasers of such stock, moreover, incur the risk of bringing into their places the Japanese Beetle and other dangerous insects and pests.

Buy home-grown, home-tested stock, from reputable nurseries, properly inspected and certified.

(C O P Y)

STATE OF NEW YORK
**DEPARTMENT OF AGRICULTURE
AND MARKETS**

CHARLES H. BALDWIN, COMMISSIONER
ALBANY

To planters of Nursery Stock:

Due to the continued spread of the Japanese beetle, *Popillia Japonica*, from the original point of infestation, the area under both state and federal quarantine has been greatly extended. A large part of the present quarantined area has very slight infestations of the Japanese beetle at quite widely separated points.

The spread of Japanese beetle on nursery stock is largely confined to trees or perennial plants which are distributed with soil upon their roots. Prospective planters in the lightly infested area may help in the delaying of heavy infestation of this insect by purchasing their requirements from nurseries that are certified by the state and classified by the Federal Bureau of Plant Quarantine. They also might well look with suspicion upon the unknown peddler of trees, shrubs and plants with no local place of business, unless such peddler can show a state inspection certificate covering the stock sold by him, together with proof of federal classification of the nursery where the stock originated.

(Signed) *B. D. Van Buren*,
Director, Bureau Plant Industry.
